**CTEK Chargers the worlds smartest chargers** are crafted with leading Scandinavia technology and design - with such product attributes as their easy to use functionality, durability and excellence in quality, there's no wonder they're number 1, Best in Test.

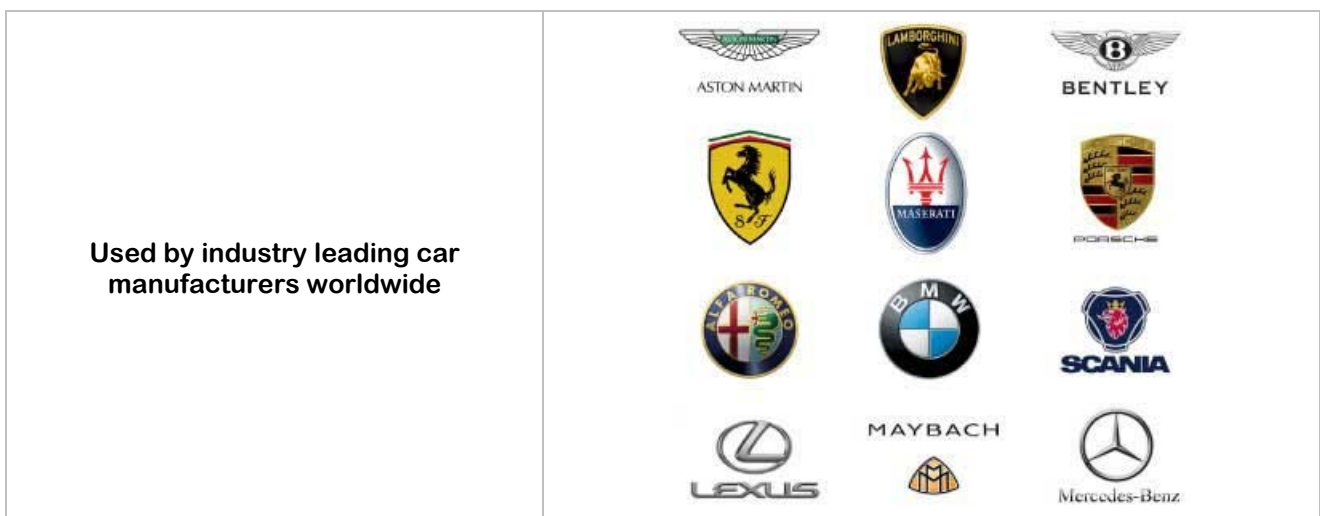

There are various CTEK Charger models to accompany your vehicle application. The beauty of a CTEK Charger is that they are highly versatile, without compromising the products integrity. These smart chargers are stylish and sleek, but don't let their looks deceive you - these chargers have been built with the premise to perform and endure.

CTEK Chargers with their patented systems have shown the way through their continued innovation and evolution of intelligent chargers and charging product add-ons.

### Why you should own a CTEK battery charger.

- They are up to an 8 stage Switch Mode Charger.
- Multiple Voltage outputs accessed through the different modes.
- Designed for safety: for users, sensitive electronic equipment and the battery.
- Conveniently small and extremely easy to use – it's fully automatic!
- Quality, service and responsibility – 5 year warranty for consumers and two-year warranty for professional use.
- Increased battery dependence - maintaining your battery by charging prolongs the service life and helps retain the performance of the battery.
- CTEK battery chargers are IP44-65 classed.
